

# Spec-Grip

## Slip Resistant Additive

Spec-Grip is a micronized polymer additive that imparts slip resistance when used in any film forming sealer. Spec-Grip's low density allows it to stay in suspension in the thinnest of sealers without settling. Surfaces treated with Spec-Grip are more comfortable to walk on barefoot than surfaces treated with sand or aggregate additives. Spec-Grip will not dissolve in solvents, absorb oil or expand in water.

**Features:**

- Non-Toxic and Environmentally Safe
- Designed For Colored or Stamped Concrete
- Can Be Used In Any Type of Sealer
- Stays Suspended While Applying

**Use on:**

Any surface that may have a tendency to be slippery.

**LIMITATIONS:**

Spec-Grip is a slip resistant additive and is not meant for applications that require a non-skid surface. The substrate and coating that Spec-Grip is added to can affect the actual level of friction obtained. Always test a small area when mixing into a coating for the first time.

**DIRECTIONS:**

Add the entire contents of the package to the appropriate size container of sealer or coating while continually stirring. Some floating may occur but the Spec-Grip will become fully wetted and will disappear. Stir occasionally to ensure an even dispersion. Once mixed, the sealer can be applied by brush, roller, or low pressure sprayer.

**SAFETY PRECAUTIONS:**

Spec-Grip is not hazardous and does not contain silica, but it should be treated as a nuisance dust while mixing into the intended vehicle. Use with adequate ventilation. Use an appropriate properly fitted respirator and avoid breathing dust and particles. If dizziness, headache or eye watering occurs, get to fresh air and leave the area. Keep container closed when not in use. If spillage has occurred, sweep and dispose of according to local regulations.

**FIRST AID:**

Should eye contact occur, flush with plenty of water for at least 10 minutes and get medical attention if vision is disturbed. For skin, wash thoroughly with soap and water. If swallowed get medical attention immediately. DO NOT induce vomiting.

**SHIPPING/HMIS INFORMATION:**

Ground/Air/Vessel.....	Not regulated
Required Label .....	Not required
Required Marking.....	Not required
Uniform Fire Code .....	Not combustible
HMIS Ratings.....	H-1; F-0; R-0; PP-H

Liability with respect to use shall not exceed the purchase price of this product. Liability for incidental and consequential damages is specifically excluded.

Available for 1 gallon and 5 gallon pails.

**KEEP THIS PRODUCT OUT OF THE REACH OF CHILDREN**

**PRODUCT WARRANTY:**

The statements made herein, on labels, spec-sheets, any of Spec-West's employees or agents concerning this product are given for general information only. Due to variables beyond Spec-West's control in application, surface preparation, surface temperature, humidity and other variable factors, Spec-West assumes no liability for any claim that may arise out of the use of its products and, disclaims any warranty expressed or implied relating to the storage, application, thinning, merchantability, buyers assumption of performance and the fitness for particular purpose. Receipt of products from Spec-West or its agents constitutes acceptance of the terms of this warranty. In the event that Spec-West finds that the product delivered is not of Spec-West's standards of quality, Spec-West will at its sole discretion, either replace the product or refund the full purchase price. Spec-West's choice of one of these remedies shall be the buyer's sole remedy. Spec-West will under no circumstances be liable for consequential damages, except insofar as liability is mandated by law. Spec-West will deliver products at agreed times insofar as it is reasonably able to do so, but will not be liable for failure to deliver on time when the failure is beyond reasonable control.
